DETAILED ACTION

1. The Office acknowledges receipt of Applicant's restriction election filed February 19, 2004. Applicant elects Group I and SEQ ID NO:13 without traverse. Claims 37-46 are pending and are examined in the instant application. This restriction is made final.

Specification

2. Applicant is required to update the priority data on the first line of the specification to include the PCT application data, since the provisional application was filed more than 12 months prior to the filing of the instant application (see MPEP 201.11).

3. Claims 37-46 are allowable. The closest prior art teaches a sequence isolated from *Pisum sativum* having 90% sequence identity with Applicant's SEQ ID NO:14 (Table 6, p. 21; and Slocum et al., National Center for Biotechnology Information General Identifier No. 1173555, 2-2-96 (Applicant's IDS)). It is understood by the Office the Clustal V method of alignment recited in the claims uses the default parameters set forth on page 21, lines 10-12 of the specification.
